BEREN SERIES

Taking its name from Portuguese and Catalan limestone, Beren is a matt finish porcelain tile with subtle spots of grains and fossils. Available in a careful selection of surfaces for internal and external use, with many timeless stony colours to choose from. It is capable of creating sophisticated settings with its large format pieces, up to 900x2700mm in size.

Made in Spain. Suitable for internal and external floors and walls. Available in three finishes to suit your project - R9 natural, R10 bush hammered or P5 anti-slip.

This series is complemented by the Beren Wall series, a 300x900 ceramic feature wall tile available in three different 3D textures.

BEREN WALL SERIES

The Beren Wall series references the Portuguese and Catalan limestones and is a compliment to the Beren porcelain tile range. Without losing the minimalist and refined look that characterises this series, the stone has been worked differently to grant a bush hammered subtle finish to the set, resulting in four new brighter tones. The collection proposes three textures in 300x900mm format:

Dot, which highlights the bush hammered texture of stone
Saw, representing the engraved effect of horizontal lines
Six, forming a distracted network of regular hexagons

Made in Spain. Rectified edge. Ceramic tile suitable for walls only.
